WORK EXPERIENCE

Graduate Assistant

University of South Dakota

Aug 2025 – Present

South Dakota, USA

- Analyzed data from 25+ webinars and 10+ conferences for the Prairie Family Business Association (PFBA), identifying engagement patterns and evaluating program effectiveness to inform strategic planning.
- Built and deployed an interactive Power BI dashboard tracking program reach, satisfaction scores, and participation trends, cutting manual reporting effort by 25% and streamlining program evaluation cycles.
- Collaborated cross-functionally with stakeholders to translate business requirements into analytical solutions.
- Delivered data-driven recommendations to improve program effectiveness and support decision-making while managing multiple datasets simultaneously with strong time management and attention to detail.

Marketing Analyst

Kumari Job Private Ltd

Dec 2020 – Mar 2023

Kathmandu, Nepal

- Designed and executed data-driven digital marketing strategies by analyzing cross-platform campaign performance, driving a 30% increase in qualified lead generation and strengthening brand visibility.
- Leveraged SEO metrics, Google Analytics, and engagement dashboards to surface actionable insights, refine audience targeting, and improve campaign ROI.
- Grew LinkedIn audience by 25% through strategic newsletters and influencer partnerships, producing measurable uplift in website traffic and engagement.

Digital Marketing Officer

Rillmark Pvt. Ltd.

Apr 2018 – Feb 2019

Kathmandu, Nepal

- Managed end-to-end digital marketing campaigns for multiple clients, improving brand visibility and conversion rates through continuous performance monitoring and iterative optimization.
- Used Google Analytics to track user behavior, achieving a 15% increase in organic reach and reducing bounce rates by 10% through data-informed content and UX adjustments.
- Produced engaging content for Utsav 360 (Rillmark's sister company) across social media platforms, boosting audience engagement rate by 35% through targeted storytelling and brand-consistent creative assets.

ACADEMIC PROJECTS

IBM Employee Attrition Prediction — Python

Nov 2025 – Dec 2025

- Predicted IBM employee attrition across 1,470 records by comparing 6 classification models with SMOTE and GridSearchCV tuning, with Logistic Regression achieving the best recall (0.61) and ROC-AUC (0.80), identifying overtime, job role, and income as top attrition drivers.

Time-Series Stock Price Forecasting — R

Feb 2025 – May 2025

- Forecasted Toyota Motors (TM) daily stock prices by comparing Naïve, STL+ETS, ARIMA, and Random Walk with Drift models, with RWF emerging as the best performer (RMSE: 10.53, MAPE: 3.78%, MASE: 0.27) and projecting stock appreciation to \$247.36 by December 2025.

Canyon Ranch Data Warehouse — SQL Server

Feb 2025 – May 2025

- Designed a centralized SQL Server database and snowflake-schema data warehouse for Canyon Ranch's operations and marketing teams, enabling unified cross-departmental data access, KPI tracking, and data-driven decision-making.
